Supporting the Nation's Warfighters

DIRECTOR: LTG Henry T. Glisson, USA
DEPUTY DIRECTOR: RADM Edward R. Chamberlin, SC, USN

The Defense Logistics Agency provides supply support, contract management services and technical and logistics services to the military services, DOD agencies, federal civil agencies and to selected foreign governments. It procures supplies and spare parts for customers and supports their acquisition of weapons and other materiel. This support begins with joint planning with the services for parts and support for new weapons systems, extends through production and concludes with the disposal of materiel that is obsolete, worn out or no longer needed.

DLA is the one logistics support source for a wide range of customer needs, whether for combat readiness, emergency readiness, or day-to-day operations. The combat support agency provides:

- ◆ specialized contract management services from preaward to postaward
- ◆ a selection of more than 4.1 million consumable items
- ◆ a state-of the art distribution and storage system
- ◆ worldwide property disposal services including reutilization
- ◆ worldwide hazardous material disposal services and information on management of hazardous materials
- ◆ the latest logistics information from the Federal Catalog System, as well as logistics cataloging services in a wide variety of media
- ◆ technical logistics services, such as specialized lab testing, kitting and much more
- ◆ automated printing services and the latest in electronic publishing methods and support.

With headquarters at Fort Belvoir, VA, and field activities located worldwide, DLA performs its logistics mission with approximately 46,000 civilian and military personnel. Its primary customer activities are the Defense Logistics Support Command, the Defense Contract Management Command, and the Defense Automated Printing and Support Center. Details on each of these activities and the services they provide customers are included in this section of the handbook.

DLA Strategic Plan: *Focusing for the 21st Century*

Our Mission

To provide acquisition and focused logistics support to America's Armed Forces in peace and war--around the clock, around the world.

Our Vision

To be America's logistics combat support agency... the warfighter's choice for integrated life cycle solutions through teamwork and partnership.

Our Ethos

We are warrior-focused professionals, an integral part of the joint warfighting team. We know that victory by America's Armed Forces and the lives of service members depend on us. They can count on us to be there, every time, wherever they are, providing required logistical support... around the world, around the clock. We make a difference.

DLA STRATEGIC GOALS

- Consistently provide responsive, best-value supplies and services to our customers.
 - Serve as a catalyst for the revolution in business affairs and acquisition reform.
 - Ensure our workforce is enabled to deliver and sustain world-class performance.
 - Rapidly exploit technology to provide agile, responsive, interoperable solutions.
 - Aggressively pursue partnerships with industry and our suppliers.

DEFENSE LOGISTICS SUPPORT COMMAND: *SUPPLY CENTERS*

4.1 million items

\$12 billion in customer sales each year...supporting 1,400 weapons systems

\$10.4 billion in agency purchases each year

DLSC is responsible for 86 percent of all DOD consumable items; more than 55 percent of all federally stocked items.

DLSC buys and manages a vast number and variety of items used by all the military services and federal civilian agencies. Commodities include energy, food, clothing and medical supplies. The agency also buys and distributes hardware and electronic items used in the maintenance and repair of equipment and weapons systems.

Customers determine their requirements for materiel and supplies. DLSC supply centers consolidate requirements and procure the supplies in sufficient quantities to meet customers' projected needs. Many of DLSC's procured items are delivered directly from a commercial vendor; the remainder of the items are stored and distributed through a complex of nationwide depots. Some supply centers also offer specialized services to support customers.

DLSC has adopted a weapon and troop systems customer-focused approach in support of the military services. DLSC has established two weapon systems inventory control points: the Defense Supply Center, Columbus, and the Defense Supply Center, Richmond, and a troop and general supply ICP, the Defense Supply Center, Philadelphia. We have realigned various stock classes of inventory to balance ICP workload and aligned item management responsibility with the appropriate weapon systems or troop support ICP. DSCR is designated as the lead center for air/aviation systems; DSCC as the lead center for land and sea/subsurface (maritime) systems; and DSCP as the lead center for troop support systems and general supply. The Defense Energy Support Center, formerly known as the Defense Fuel Supply Center, will provide all forms of facility and mobility energy.

The lead center provides a single weapon or troop support system point of contact for DLSC at the system program level. Lead center weapon system support managers (WSSMs) have been assigned for Level A weapon systems and designated troop support systems. The WSSMs will work directly with the applicable service program managers, depot maintenance activities and service major commands to resolve fleet-wide readiness or supply support issues for DLA-supported Level A weapon systems and designated troop support systems. The WSSM will act as the primary catalyst for inter-agency support and provide one DLSC face to the customer for that specific weapon or troop support system. Specific concerns associated with the status of individual NSNs and requisitions will continue to be the responsibility of the managing ICPs. (Customers should continue to use traditional channels, such as Emergency Supply Operations Centers and call centers for these inquiries.)

In addition to the traditional supply centers, DLSC also has an Internet web site available that includes items from all DLSC supply centers as well as from additional vendors. This electronic mall, or EMall, is accessible to any DLSC customer via the Internet at <http://www.emall.dla.mil>.

DLSC's Five Supply Centers

Defense Supply Center, Columbus, Ohio

+ Defense Energy Support Center, Fort Belvoir, Va.

Defense Supply Center, Richmond, Va.

^Defense Industrial Supply Center, Philadelphia, Pa.

*Defense Supply Center, Philadelphia, Pa.

+ Formerly known as Defense Fuel Supply Center.

* Formerly known as the Defense Personnel Support Center.

^ As a result of a Base Realignment and Closure decision, the DISC mission will conjoin with DSCP in 1999. Ultimately there will be two weapons systems ICPs (Richmond and Columbus) and one troop and general support ICP (Philadelphia), in addition to the energy support center.

DEFENSE SUPPLY CENTER, COLUMBUS S9C/S9E (9C, 9E)

DSCC is the lead center for land and sea support. Currently the center has 11 teams dedicated to all aspects of customer support. It manages 25 Federal Supply Groups and more than 200 Federal Supply Classes, including the electronic items that were transferred to the center from the Defense Electronics Supply Center. Refer to this listing and the index of FSC assignments in the back of this book for details on which kinds of items are provided.

DSCC Readiness and Logistics Engineering Office

DSCC-NR, Bldg 9-2

3990 East Broad

Columbus, OH 43216-5000

DSN: 850-1796 Commercial: (614) 692-1796

FAX- DSN: 850-4419 Commercial: (614) 692-4419

DSCC-NR (Readiness and Logistics Engineering Office) partners with military customers to develop new products to extend the life of existing weapon systems, conducts reverse engineering manufacturing studies, develops prototypes to satisfy field test requirements, and sponsors an active spares modernization program. DSCC-NR maintains a shop facility and is responsible for several major weapon systems on loan from various military services. The Readiness Office plays a key role in supporting combat weapon systems and has earned respect throughout the military community. Each member of the team is on the front line with the customer to satisfy their needs and support weapon systems readiness challenges.

The following is a POC list for gaining readiness support from DSCC-NR teams:

DLA PRODUCT TESTING CENTER

The central office of the DLA Product Testing Center (PTC) is located at Defense Supply Center, Columbus. The PTC is a full-service, customer-focused testing facility with the capability to satisfy the requirements of a broad range of military and commercial applications in a reliable, cost-effective, and timely manner. In addition to testing, the PTC provides engineering analysis and technical support, test plan writing, data package design, and calibration services. We develop strong working relationships with our clients and use a mix of cutting-edge technology and expertise to fulfill our unparalleled commitment to customer satisfaction.

Our five modern testing facilities, located nationwide, offer nearly 100 years of combined testing experience as your frontline defense for quality and reliability. Two PTC sites are co-located with DLA's east and west coast Primary Distribution Sites for ready availability of material. Three test sites are stationed with major DLA inventory control points for close working relationships with item managers and quality assurance specialists. For more information about our testing capabilities, please contact one of the center managers listed below, or visit our Internet web site at <http://www.dscc.dla.mil/T/index.html>.

DEFENSE ENERGY SUPPORT CENTER

(Formerly Defense Fuel Supply Center)

S9F (9X)

DESC provides contracting support and management of all petroleum-based fuels, additives and other energy products and services, including jet fuels, distillates, residual fuels, gasolines, diesel fuels, heating fuels, natural gas and electricity. DESC also manages bulk petroleum facilities storing DLA-owned fuel. The center provides DOD and other government agencies with comprehensive energy support in the most effective and economical manner possible.

DIRECTOR: Gary S. Thurber

CENTRAL SUPPORT NUMBER

Worldwide, around the clock, 1-800 service for customers and suppliers is

1-800-2-TOPOFF (1-800-286-7633)

The DESC web site (<http://www.desc.dla.mil>) offers on-line solicitations, as well as fuel prices for contractors and customers in the areas of bulk, ships' bunkers, into-plane and posts, camps and stations. It also features Internet submission of Petroleum Quality Discrepancy Reports.

Questions Regarding:	Office/POC	Extension/Email
MAGSTRIP (Ships' Bunkers)	Marvin Grubbs Lonnie Thompson	8458 9404
AirCARD (Into-Plane)	Debra Van Kleef	8488

Commodity Business Units

Alternative Fuels	DESC-A Sharon Murphy	8550/Fax 8757 smurphy@desc.dla.mil
-------------------	-------------------------	---------------------------------------

Procures natural gas and coal for DOD and federal civilian agencies in the continental United States, Germany and Alaska. Acts as the single manager for the DOD Direct Supply Natural Gas Program and procures electricity.

Bulk Fuels	DESC-B COL Ray Rodon, USA	9280/Fax 8747 rrodon@desc.dla.mil
------------	------------------------------	--------------------------------------

Provides worldwide support to customers in the areas of contracting, distribution, transportation and inventory control of bulk fuels, including jet fuels, Navy fuel oils, aviation gasoline, distillate and residual fuels, automotive gasoline and special bulk lubricating oils. Also manages quality assurance, quality surveillance, product specifications, and cataloging and fuel standardization for all fuels and related products except natural gas. Procures crude oil in support of the Department of Energy's Strategic Petroleum Reserve Program and sells excess petroleum products as authorized.

Facilities Management	DESC-F Frank Boyle	9360/Fax 9330 fboyle@desc.dla.mil
-----------------------	-----------------------	--------------------------------------

Oversees worldwide fuel terminal operations and storage and acquisition programs. Plans and programs operations and maintenance of government-owned, contractor-operated, and contractor-owned, contractor-operated facilities; administers the bulk fuels military construction and maintenance, repair and environmental programs; provides environmental support to DOD bulk petroleum facilities; negotiates with foreign governments; plans and administers DESC laboratory testing, alongside fueling and large-purchase base contracts.

Direct Delivery Fuels	DESC-P Colleen Morris	8500/Fax 8506 cmorris@desc.dla.mil
-----------------------	--------------------------	---------------------------------------

Responsible for worldwide acquisition and integrated materiel management of motor gasoline, gasohol, diesel fuels, jet fuels, aviation gasoline, fuel oils, marine fuels and kerosene delivered directly to customers.

DEFENSE SUPPLY CENTER, PHILADELPHIA (Formerly Defense Personnel Support Center)

DSCP is currently responsible for troop support items, including all medical, subsistence, and clothing and textiles, along with some general supply items. When the Defense Industrial Supply Center is disestablished in 1999, DISC's mission will be incorporated into DSCP. DSCP will then be responsible for handling all troop support items and general commodities not handled by the weapons systems supply centers in Columbus, Ohio, and Richmond, Va. Refer to the FSC assignments in the back of the book for details on the kinds of items provided.

Special Programs, as identified above:

Digital Imaging Network-Picture Archiving and Communications System (DIN-PACS): teleradiology equipment using digital pictures in lieu of film.

Managed Care (National Mail-Order Pharmacy): The customers mail their prescriptions using prepaid mailers to the contractor, who fills the prescription within 48 hours.

PREPACs: Custom-designed surgical procedure packs. Different PREPACs are made for each procedure and each individual surgeon. PREPACs are ordered via Prime Vendors who deliver the PREPAC the day after it is ordered.

Prime Vendor: Delivery in 24 hours, choice of commercial items, high-quality products, and dependable, consistent service.

Stock Rotation Program: The government purchases a quantity of materiel which the contractor stores and rotates.

Vendor-Managed Inventory: Readiness personnel identify shelf-life materiel. DSCP guarantees to purchase a certain amount. The vendor stocks the entire amount and rotates it so it will not expire.

DEFENSE LOGISTICS SUPPORT COMMAND: *DISTRIBUTION*

- 5 million items stored
- 618 million cubic feet for storable space
- 25.2 million receipts and issues each year

DEFENSE DISTRIBUTION CENTER

The Defense Distribution Center (DDC) was established on October 1, 1997, through the consolidation of the former Defense Distribution Regions East and West. The center's headquarters is in Fairview Township, York County, near New Cumberland, Pa., and the state capital at Harrisburg.

The DDC provides management support for distribution depots located throughout the U.S. and in Europe. This network of depots stock a wide range of commodities owned by the military services and DLA, including medical, industrial, general, electronic, construction, subsistence, clothing and textile items; spare parts and components to repair and sustain weapon systems and tactical vehicles.

The depots receive, store and issue wholesale and retail materiel worldwide. They are strategically located to take advantage of existing transportation, including rail lines, airports and highways.

Some of the distribution depots are highly automated facilities that have been specifically designated to provide global support for general commodities. Others are used to provide customer requirements on a regional basis, or to provide global support for material that requires special equipment, facilities and training.

In addition to the primary mission of receiving, storing and issuing material, DLSC depots provide other services. Typical services include, but are not limited to: refrigerated storage, cylinder refurbishment, tent repair, medical unit assemblies, minor maintenance, vehicle painting and set assembly or disassembly.

A major DDC goal is to reduce total system cost. Under this initiative depot commanders have instituted procedures to process all customer orders and new procurement receipts in one day, regardless of priority. One-day depot processing offers potential for large savings by reducing the logistics pipeline and many other benefits.

Savings have also been generated under infrastructure reductions directed by the Base Realignment and Closure Committees. Distribution Depots have been reduced by one-third since 1992, when DLA operated 33 depots. Plans call for continued reductions. As a result of BRAC 95, the depots at Ogden and Memphis were closed in 1997 and the depot at Letterkenny was closed in September 1998. The depots at San Antonio, Texas, and McClellan, Calif., are scheduled to close by calendar year 2001. San Antonio is currently outsourced to a private contractor and will remain under contract until closure.

DLSC is in the process of implementing one Distribution Standard System for all of its depots. In the past, the Army, Air Force, Navy and Marine Corps each managed their own depots under different operating structures, policies and procedures. Also, each had a unique system for operating depots. From a component perspective, things ran well. From the total perspective, having many different systems and procedures was costly. The DSS will standardize the system and processes, and reduce costs to maintain systems.

TOURING THE DISTRIBUTION DEPOTS

Here's a quick tour of all the depots. Please note focus is subject to change as customer needs change.

Defense Distribution Depot Albany, GA

DDAG, located on one of two Marine Corps logistics bases in the world, is an important element of the logistical efforts of the Marine Corps. The depot is the Marine Corps' primary source of storage and distribution of combat vehicles, repair parts and expendables. In addition, it also provides a full range of services to the U.S. Air Force, U.S. Army, Defense Supply Center, Philadelphia, and other DLA customers. Support is also provided to Foreign Military Sales customers and various agencies worldwide. The depot provides wholesale distribution support for the Prepositioning Ships Program for both the Marine Corps and the Army.

The depot is responsible for transportation management, receipt and inventory control. Additionally, it performs the packaging, packing and preservation function for set assembly, supports the Care of Stock in Storage Program, and provides support to depot maintenance programs. Resources managed include a multimillion dollar operating budget, two million square feet of storage space, special storage for radiological material, dehumidified storage for subsistence, and storage for textiles and clothing for all DOD services worldwide.

Defense Distribution Depot Anniston, AL

DDAA provides distribution services for tracked vehicles, wheeled vehicles, small arms and missile launchers. It maintains materiel to support weapons systems, including lubrication oil, hydraulic fluid, cleaners and grease. Its primary mission is to support the maintenance mission of Anniston Army Depot. However, it also receives and sends equipment and machinery by land, sea and air for worldwide distribution. The depot stores items ranging from small microchips to M1A2 main battle tanks. The depot's industrial capabilities include vehicle repair, modification and camouflage painting.

Additional services include Total Package Fielding of weapons systems for combat and wheeled vehicles; disassembly, modification and minor repair of small arms weapons; and preservation and packaging of new procurement material. The depot also demilitarizes small arms, weapons systems components and other items.

Defense Distribution Depot Barstow, CA

The hot, dry desert climate makes Barstow's 117 acres an ideal location for outdoor storage of large tactical vehicles and equipment. Among the items stored outside are self-propelled howitzers, M-60 tanks, High Mobility Multipurpose Wheeled Vehicles, and ships' propellers, shafts and anchors.

DDBC's container manufacturing section is capable of constructing a variety of items, including plywood, fire retardant and cardboard containers. This section also manufactures fiberboard inserts, which are commonly used to store small items in bins. Containers and inserts can be custom constructed to meet any dimensions.

A gas mask test and repair facility is located at DDBC. Specialized clothing is fully tested and inspected. Depot personnel also test and maintain Army and Marine Corps gas masks, filters, drinking tubes and other types of protective clothing.

Defense Distribution Depot Cherry Point, NC

DDCN supports the 2nd Marine Air Wing, numerous Marine Aviation Logistics Squadrons, Naval Air Stations and the Naval Aviation Depot at Cherry Point. All material, equipment and components assigned are in support of fixed- and rotary-winged aircraft maintenance. Cherry Point performs all specialized packaging, preservation and crating of components. The depot is the Naval Air Systems Command proponent for custody, preservation, handling and shipping of assigned engines.

In support of Marine Corps deployments, exercises and mobilizations, DDCN provides rigging, loading, blocking and bracing, and transportation services for essential air and ground support equipment, weapons and vehicles. Within Marine Corps Air Station Cherry Point, DDCN performs preservation and packaging, central receiving, rigging operations and area transportation.

Defense Distribution Depot Columbus, OH

DDCO handles slow-moving stock items. It is a tenant of the Defense Supply Center, Columbus, a Defense Logistics Support Command inventory control point. The depot provides distribution and warehousing facilities for the armed forces and other federal agencies. It works closely with the Defense Reutilization and Marketing Service in support of the Humanitarian Assistance Program to provide material assistance to schools, state agencies and homeless shelters.

Defense Distribution Depot Corpus Christi, TX

DDCT serves as the primary wholesale distribution point for major components to support helicopter repair missions worldwide. It performs loading and offloading helicopters and other priority cargo from C-5A, C-141 and C-130 aircraft operated by the Military Airlift Command. The Aircraft Delivery Office performs the unique mission of receipt, inspection, inventory, records keeping, movement, preservation, packaging, palletization, marking, routine scheduled maintenance, storage and issue of helicopters. Items processed include avionics, electronics, industrial, general, petroleum, chemicals and repair parts for principal end items like small aircraft and helicopters.

DDCT also provides control of mission projects outside the normal depot mission. Depot capabilities include demilitarization of items by removal of the military markings and rendering the item useless for its intended purpose. Additionally, DDCT provides distribution support to Naval Station Ingelside and the Navy's Mine Countermeasure mission also located at Ingelside.

Defense Distribution Depot Europe, Germany

DDDE is the Defense Distribution Center's only facility on the European continent. Its distribution activities are located in Germany, the Netherlands and Italy. The primary mission is to provide subsistence, lumber, clothing and textiles and map products to the military forces in Europe and the Middle East and for the Department of Defense Schools. DDDE further supports subsistence distribution to Navy ships operating in the Mediterranean Sea and the Atlantic Ocean. Additionally, DDDE supports Defense Supply Center, Richmond, through the gas cylinder ozone depletion mission which includes shipping the cylinders to the states for refurbishment.

Defense Distribution Depot Hill, UT

DDHU is located at Hill AFB, UT, which is also home to the Ogden Air Logistics Center (ALC). Depot employees perform key distribution operations that support the maintenance functions performed by the Ogden Air Logistics Center. Primary distribution support to the Ogden ALC is provided for the Minuteman and Peacekeeper missiles and the Emergency Rocket Communication System; the F-16 Fighting Falcon; the C-130 Hercules; and Air Force-wide depot level overhaul and repair for all types of landing gear, wheels, brakes and tires. Another major mission performed by DDHU is assembly of the Army's Deployable Medical Systems (DEPMEDS). These self-contained, portable units are capable of being positioned quickly in an area of operations during war or a national emergency. The Hill Depot assembles, modifies, repairs, rebuilds, certifies and stores the modular units that can contain operating rooms, x-ray equipment, blood labs and pharmacies. DEPMEDS can range in size from a single unit general purpose lab to a 1,000-bed hospital containing 12,000 line items. Tent repair is another associated function that DDHU performs. Approximately 1,000 tents are repaired annually before going into storage for future use.

Microcircuit chips are reprogrammed by the employees of DDHU. Anywhere from 8,000 to 10,000 microcircuits are reprogrammed with new instructions for use on general and special purpose computers found in DOD weapons systems.

Defense Distribution Depot Jacksonville, FL

DDJF ensures that its major customer, the Naval Aviation Depot, has the right material at the right price to perform depot maintenance on aircraft engines, avionics, airframes and other electronic components. These parts are critical to the rework facilities and maintenance teams that travel worldwide to assist air squadrons and other units requiring aircraft maintenance, modification and repair work.

DDJF supports a wide variety of customers from the Department of Defense and the National Aeronautics and Space Administration to the U.S. Customs Service. Its customer base includes two local Naval Air Stations, and Naval Stations in Guantanamo Bay, Puerto Rico, Andros Island and Key West.

Defense Distribution Depot McClellan, CA

Ground-controlled approach radar in use at airports, weather radar, generators and all sorts of voice and data communications equipment are just a few of the many diverse items that are stored in DDMC warehouses. Some components are very expensive and equally delicate, requiring special handling and storage. It is not unusual for employees to build one-of-a-kind shipping containers for these items. In addition to these communications components, DDMC also stores trailers, vans and inflatable shelters that house communication devices.

The depot provides aviation parts to support Sacramento Air Logistics maintenance on the F-15 Fighter and the A-10 tank killer. There is also support, in the form of wiring harnesses, provided to the KC-135 refueler. As a result of a 1995 Base Realignment and Closure decision, DDMC will close by 2001.

Defense Distribution Depot Norfolk, VA

DDNV employees see their customers every day. The customer base includes more than 150 ships, from aircraft carriers to destroyers and submarines, that pull into Norfolk's piers for supplies. The majority of its workload comes from supplying the Navy's Atlantic and Mediterranean fleets, Atlantic bases and numerous shore establishments. DDNV also serves as the main supply point for the portion of the Navy that supports NATO.

The depot provides standard packing operations, specialized storage operations, cold storage warehousing and hazardous material packing and shipment. It also interfaces with direct vendor-to-customer and local delivery services. DDNV handles unique services based on customer needs. These include the packing and storage of new and repaired aircraft parts, and the handling and shipping of radioactive and medical items. Military operations are not the only recipients of the depot's program of services. It is actively involved in humanitarian relief efforts in the United States, the Caribbean and other countries.

Defense Distribution Depot Oklahoma City, OK

The Oklahoma depot operates a comprehensive engine management system which provides accountability for more than 2,000 aircraft engines. The system tracks engines and related support equipment from the time engines are reported due-in from the field, to receipt and storage, through repair and overhaul cycles to subsequent storage or reshipment.

DDOO supports the maintenance and repair of various weapons systems that include the B-1, B-2, and B-52 strategic bombers. In addition, it provides supply support to the entire 135 series of aircraft which includes the KC-135 aerial tanker used in the mid-air refueling of other aircraft to extend their range of flight. The E-3 and E-4 Early Warning and Control Systems are supported by DDOO. Special support is provided to the Tinker AFB mobility mission in the form of processing readiness spare kits, mobility bags, and weapons and ammunition.

Defense Distribution Depot Puget Sound, WA

Among the unique missions at the Puget Sound Depot is the storage and handling of items used aboard submarines. Industrial items with critical tolerances and exacting standards such as fasteners, valves, welding rods, pipe, bar stock and oxygen ballasts receive the highest level of care and attention to preserve the integrity of this material. Employees who handle "subsafe" material receive specialized training to ensure this material is segregated and tracked with unique identification control numbers. The Puget Sound depot also stores battery sets for submarines. These sets can require up to 130 individual batteries weighing approximately 2,000 pounds each. Salvaged parts and equipment once in use on Navy ships which were decommissioned are stored at the depot. Radar assemblies, compressors, gauges, valves or just about anything else identified for salvage is carefully set aside for later use or turned-in for redistribution.

Huge items such as propulsion systems to include ships propellers, gears and shafts are specially packed and crated for storage or shipment by the Puget Sound craftsmen.

Defense Distribution Depot Red River, TX

DDRT's primary mission is to provide distribution support for secondary items and for repair parts on tracked and wheeled vehicles, aircraft and weapons systems. A \$29-million contract was awarded in 1994 to build a facility that would consolidate receiving, storing, shipping, packaging and marking operations under one roof. The building will contain 640,000 square feet of warehouse and operational space. Full operational startup for the building is planned for 1998. The Army has designated DDRT as the storage site for its Bradley Infantry Vehicles, Multiple Launch Rocket Systems, and High Mobility Multipurpose Wheeled Vehicles.

DDRT also builds and maintains a supply of basic issue items that accompany wheeled and tracked vehicles shipped to units in the field. These kits include such things as wrenches, jacks, tie-down ropes or cables, and other items needed to perform minor maintenance in the field. The depot is the sole distribution point for the Single Channel Ground and Airborne Radio System. This system, being fielded throughout the Army, links communications between wheeled vehicles, tracked vehicles, helicopters and soldiers on foot.

When weapon systems, vehicles or aircraft are delivered to Army units, they also get support packages assembled by DDRT employees. These packages contain spare parts, tools, technical publications and diagnostic equipment needed to keep a particular item up and running until full operational maintenance systems are in place.

Defense Distribution Depot Richmond, VA

DDRV streamlined and consolidated its distribution operations by connecting several warehouses into a single, integrated facility called the Connector Building Complex (or CBC 54). This automated facility helped the depot improve its customer support to DOD, the Federal Emergency Management Agency, the U.S. Postal Service and other government agencies. DDRV is the primary site providing all National Imagery and Mapping Agency geospatial-mapping products to the world. The depot ships to their satellite facilities located in Norfolk, VA.; Panama; San Diego, CA; Tampa, FL.; Honolulu, Hawaii; Bahrain; Atsugi and Yokosuka, Japan; and Pusan, Korea. DDRV also ships products to DDDE map locations in Germersheim, Germany, and Naples, Italy. The depot supports all services from Richmond, their satellites, or from the production plant located in St. Louis, MO, where their contract transshipment office is located.

The depot is a hazardous material storage authority with more than 1,237,000 square feet of dedicated Environmental Protection Agency-conforming storage. Highly qualified personnel oversee the care and handling of various materials such as lubricants, batteries, solvents, anti-freeze and acids.

Richmond is designed for the receipt and management of ozone-depleting substances. It has a large compressed gas reclamation and cylinder refurbishment operation.

Defense Distribution Depot San Antonio, TX

Boston-based EG&G Management Services took over the management of the distribution operation at DDST on March 13, 1998. Additionally, the San Antonio depot was selected for closure no later than 2001 under a 1995 Base Realignment and Closure decision. One of the largest cantilever rack systems in the U.S. is located at the San Antonio depot. Floor-to-ceiling

racks extend to a height of 28-feet and contain 117,000 linear feet of storage. Man aboard, wire-guided sideloaders are used to stow and select stock in this area. Much of the Air Force's total inventory of engines, which includes 35,000 aircraft engines, and more than 55,000 auxiliary engines, process through DDST distribution channels. DDST provides depot-level supply support for the repair and maintenance of 33 types of aircraft and systems used by allied foreign forces, under the U.S. Security Assistance Program.

Defense Distribution Depot San Diego, CA

Among DDDC's primary customers are 76 ships homeported in San Diego. The depot has a new facility with 32,643 square feet of frozen storage. In addition, the building has 5,740 square feet of "chill" storage for food items requiring refrigeration above freezing temperatures. The San Diego depot provides distribution support to the Naval Aviation Depot at North Island with a major packing and preservation mission. Salvaged parts and equipment once in use on Navy ships that were decommissioned are stored at San Diego. Radar assemblies, compressors, gauges, valves or just about anything else identified for salvage is carefully set aside for later use or turned-in for redistribution.

Defense Distribution Depot San Joaquin, CA

The San Joaquin depot is one of two DLA Primary Distribution Sites. It is composed of facilities in Sharpe and Tracy, CA. It serves as a hub of distribution activity stocking a majority of the items commonly ordered by the military services. Items stored fall into the categories of food, clothing and textiles, medical supplies and equipment, construction materials, electrical supplies, electronic components, tires for both vehicles and aircraft, secondary repair parts and several more categories. In addition to the basic receive, store, and ship mission, this depot performs preservation; packaging; stock readiness inspection; unit, kit and set assembly; marking; and reclassification of material. Depot personnel perform demilitarization of items by removing military markings to render them useless for their intended purpose and prepare items for disposal.

Defense Distribution Depot Susquehanna, PA

DDSP is the other DLA Primary Distribution Site, with facilities at New Cumberland and Mechanicsburg, PA, providing military and commercial repair parts, clothing and textiles, medical supplies and industrial and electronic components to military customers throughout the United States and the world. DDSP has the largest distribution facility in DOD. The Eastern Distribution Center, located at New Cumberland, encompasses 1.8 million square feet. The Integrated Material Complex, at 523,000 square feet, is at DDSP's Mechanicsburg facility.

Container consolidation points for both the Army and the Air Force are operated at DDSP, consolidating materiel from U.S. facilities into sea van containers and Air Force 463L Air Line of Communication pallets for overseas shipments. DDSP supports the fielding of new weapons systems for the Army through the assembly of repair parts, tools and technical manuals at the Unit Materiel Fielding Point (UMFP) and manages the Navy's Publications and Forms mission. The depot was the first site to successfully deploy the Distribution Standard System (DSS), the distribution system developed to replace all existing systems.

Defense Distribution Depot Tobyhanna, PA

DDTP operations at Tobyhanna Army Depot support the massive DOD communications-electronics industry. Tobyhanna Army Depot is the sole communications-electronics maintenance depot in the U.S. Army and the largest full service facility within DOD. The Army Depot and the Defense Distribution Depot are recognized as partners for excellence in communications-electronics systems integration, overhaul and repair, fabrication and worldwide logistics support. The Army depot material and systems include radar, telephone, anti-intrusion devices, airborne surveillance equipment and navigational instruments. DDTP supports the entire communications-electronics material spectrum for these systems.

It receives, stores and issues communications-electronics systems, components, repair parts and equipment. The depot also accomplishes the close coordination required for complex communications-electronics shelter systems integration and subsequent set assembly prior to fielding. DDTP is noted for handling special electronics operations such as the Electrostatic Discharge Control Program where sensitive parts receive component protection through proper maintenance procedures, handling, packaging, marking and storage. The warehouse includes general purpose, heated, freeze and chill, controlled humidity and flammable storage facilities. They contain global positioning kits, radios, generators, batteries, infrared jammer and mine-clearing line charger trailers and communications-electronics shelter systems. A shelter movement and handling facility provides a covered receipt, storage, set assembly, packaging and shipping area.

Defense Distribution Depot Warner Robins, GA

DDWG provides physical distribution support for material located at Warner Robins Air Logistics Center. The depot's worldwide support includes providing customers in all U.S. armed forces and specific foreign military with parts and equipment for F-15, C-130, C-5 and C-141 aircraft, target acquisition systems and most airborne electronic warfare systems. Its biggest customers are the host depot-level maintenance activities and reserve units located at Robins AFB. DDWG provides distribution and delivery services in support of depot-level maintenance for F-15, C-130, C-5 and C-141 aircraft and the Air Force Avionics Technological Repair Center.

DLSC DISTRIBUTION
Premium Service
Premium Service Without Premium Cost
24 Hours from Order to Delivery

You might talk with it, move with it, compute with it, or shoot with it. It's something you typically need in a hurry, and something you simply can't do without. Whatever is essential to your mission, the quickest way to get it is the DLA Premium Service facility. Around the clock, every day of the year, you can count on the DLA Premium Service facility to store and deliver your high-value or critical items. Order by toll-free phone, fax, Internet email, the World Wide Web, or MILSTRIP.

Your requisition is picked, packed, shipped and delivered to the door in CONUS within 24 hours, and in country OCONUS within 48 hours from the time your order is received at the Premium Service facility. The program boasts a 99.99 percent inventory accuracy rate with a 99 percent on-time delivery rate. In other words, if you place stock in the DLA Premium Service facility, you have a near 100 percent confidence rate that your customer is going to get the material they ordered.

A longer-term benefit is cost avoidance. Because the facility offers high-speed distribution and time definite delivery, Premium Service is creating unprecedented opportunities for just-in-time, just-in-case, and just-enough logistics strategies. Item and program managers can significantly reduce their stocks by centrally locating retail or wholesale inventory at the DLA Premium Service facility in Memphis, TN, allowing them to leverage transportation dollars for inventory dollars. One participant reported a \$12.6M first year savings by using this program. Give Premium Service a try and see the results!

DEFENSE LOGISTICS SUPPORT COMMAND: *LOGISTICS SERVICES*

AT A GLANCE:

\$4.4 billion stockpile of strategic and critical materials

\$21 billion worth of materiel reutilized/disposed/donated: \$166 million in annual sales

7 million items of supply cataloged in Federal Catalog System: 49 million transactions a year

DLSC's supply centers and distribution depots offer a variety of general services to customers, but the command also has specialized service centers to assist customers with specific logistics needs.

The **Defense National Stockpile Center**, located in Fort Belvoir, VA, buys, sells and maintains critical and strategic materials to reduce the nation's dependence upon foreign sources of supply for such materials during national emergencies. The stockpile center procures and disposes of materials as needed.

The **Defense Logistics Information Service**, formerly known as the Defense Logistics Services Center, is located in Battle Creek, MI. The service manages the Federal Supply Catalog System and provides logistics information products and services for all military and civilian activities. The center maintains a data bank of information and provides it to customers in formats and media unique to their needs. DLIS, designated as the centralized DOD center for all cataloging, will perform all DOD cataloging by the end of the year 2000.

The **Defense Reutilization and Marketing Service** has headquarters in Battle Creek, MI, and field offices located on or near major customer sites in the United States and around the world. The service redistributes and disposes of defense equipment and supplies no longer needed by the original user. Assets are matched against requirements of the military services and federal agencies and transferred as needed. When materiel cannot be reused, transferred or donated to eligible recipients, it is sold to the general public. DRMS also manages the agency's Precious Metals Recovery Program and is the sole manager for the disposal of hazardous property for DOD.

DEFENSE LOGISTICS AGENCY: *Additional Services*

DLA's logistics missions are sustained by three other primary centers that do not report to the Defense Logistics Support Command, but which offer specialized services to customers.

The **DLA Systems Design Center (DSDC)**, in Columbus, OH, designs, develops and maintains the automated information systems essential to DLA procurement, supply management, contract management, and logistics support operations worldwide. (This center is scheduled to be abolished.)

The **Defense Automatic Addressing System Center (DAASC)**, in Dayton, OH, provides editing and routing of logistics transactions; network interoperability for the logistics community; and special services and reports.

The **Defense Automated Printing and Support Center (DAPSC)** is co-located with DLA Headquarters in Fort Belvoir, VA. One component of DAPSC is the *DLA Administrative Support Center (DASC)*. It provides administrative support to all DLA activities in the Washington, D.C. area, in DLA Europe and DLA Pacific, and offers some of these services to other DOD customers. The *Defense Automated Printing Service (DAPS)* the other component of DAPSC, provides printing, copying, scanning, imaging, document conversion, CD-ROM and web services for all of DOD.

WEB SITE: <http://www.dnsc.dla.mil>

Historically, the Defense National Stockpile Center has bought, sold and maintained critical and strategic materials for national defense purposes. Currently, DNSC stores 77 commodities, valued at \$4.4 billion, at 75 storage sites. Due to changes in the world political environment, the requirements to stockpile most of these items have diminished. Congress has approved the sale of a number of DNSC commodities to reduce this inventory. Today the center operates as an international commodity broker of strategic and critical materials for the U.S. government, primarily to meet national security requirements. It has the experience of nearly half a century in buying, selling and warehousing industrial materials. DNSC sold more than \$513 million of excess raw or semi-processed materials in the past fiscal year. Sales efforts are expected to continue at a similar level for the next half-decade to assist the military service programs.

DRMS

FEDERAL SUPPLY CLASSES: USABLE PROPERTY

Weapons (Accessories)

1005 Holsters, slings, small arms accessories Weapons (Accessories)

Nuclear Ordnance Equipment

1190 Specialized Test and Handling Equipment, Nuclear Ordnance

Fire Control Equipment

1220 Fire Control Computing Sights and Devices
1240 Optical Sighting and Ranging Equipment
1260 Fire Control Designating and Indicating Equipment
1265 Fire Control Transmitting and Receiving Equipment, except Airborne
1270 Aircraft Gunnery Fire Control Components
1280 Aircraft Bombing Fire Control Components
1285 Fire Control Radar Equipment, except Airborne
1290 Miscellaneous Fire Control Equipment

Guided Missile Equipment

1440 Guided Missile, Launchers, Components and Remote Control Systems
1450 Guided Missile Handling and Servicing Equipment

Aircraft and Airframe Structural Components

1510 Single Engine Aircraft
1510 Twin Engine Aircraft
1510 Multi-Engine Aircraft
1520 Aircraft, Rotary Wing (e.g., helicopters)
1550 Drones and Gliders
1560 Airframe Structural Components, etc., peculiar to Single Engine
1560 Airframe Structural Components, etc., peculiar to Multi-Engine Aircraft
1560C Airframe Structural Components, etc., peculiar to Helicopters

Aircraft Components and Accessories

1610 Aircraft Propellers and Component Parts
1615 Helicopter Rotor Blades, Drive Mechanisms and Components
1620 Aircraft Landing Gear Components
1630 Aircraft Wheel and Brake Systems
1650 Aircraft Hydraulic, Vacuum, and Deicing System Components
1660 Aircraft Air Conditioning, Heating, and Pressurizing Equipment
1670 Parachutes and Aerial Pick Up, Delivery, and Cargo Tie-Down Equipment
1680 Miscellaneous Aircraft and Space Vehicle Accessories and Components

Aircraft Launching, Landing, and Ground-Handling Equipment

1710 Aircraft Arresting, Barrier, and Barricade Equipment
1720 Aircraft Launching Equipment
1730 Aircraft and Space Vehicle Ground-Handling and Servicing Equipment
1740 Airfield Specialized Trucks and Trailers

Ships, Small Craft, Pontoons, and Floating Docks

1905 Aircraft Carriers (for scrapping only)

- 1905 Battleships, Cruisers, Destroyers (for scrapping only)
- 1905 Landing Ships (e.g., LSM, LSMR, LSSL, LST, etc.)
- 1905 Minehunters, Minesweepers, Minelayers
- 1905 Submarines (for scrapping only)
- 1905 Landing Craft (e.g., LCVP, LCPL, LCM, etc.)
- 1910 Transport Vessels, Passenger and Troop
- 1915 Cargo and Tanker Vessels
- 1935 Ferry
- 1925 Harbor Utility Craft
- 1925 Repair Ships
- 1925 Tugs (e.g., YTB, YTL, ATA, etc.)
- 1930 Fuel Barge, Gasoline Barge, Water Barge
- 1930 Lighters (open and covered)
- 1935 Barges and Lighters, Special Purpose
- 1940 Patrol Craft (e.g., PC, PCS, SC, YP, PCE, etc.)
- 1940 Seaplane Tenders
- 1940 Small Craft under 40 feet in length powered and non-powered
- 1945 Pontoons and Floating Docks (e.g., pontoon ramps, etc.)
- 1950 Floating Dry Docks
- 1990 Miscellaneous (Includes fishing vessels, dredges and commercial sailing vessels.)

Ship and Marine Equipment

- 2010 Ship and Boat Propulsion Components (excludes engines and turbines)
- 2020 Rigging and Rigging Gear
- 2030 Deck Machinery
- 2040 Marine Hardware and Hull Items (e.g., anchors, hatches, rudders, oars, etc.)
- 2050 Buoys
- 2090 Miscellaneous Ship, Marine, and Commercial Fishing Equipment (includes sails, marine furniture, ladders, etc.)

Railway Equipment

- 2210 Locomotives
- 2220 Rail Cars
- 2230 Right-of-Way Construction and Maintenance Equipment, Railroad
- 2240 Locomotive and Rail Car Accessories and Components
- 2250 Track Materials, Railroad (e.g., rails, frogs, fish plates, etc.)

Motor Vehicles, Trailers, and Cycles

- 2310 Passenger sedans/station wagons
- 2310 Ambulances and Hearses
- 2310 Buses
- 2320 Trucks and Truck Tractors one ton and heavier capacity combat assault, tracked tactical and ground effect vehicles
- 2320 Amphibian Vehicles
- 2320 Jeeps and all four-wheel drive vehicles of less than one ton capacity
- 2320 Trucks with two-wheel drive of less than one ton capacity
- 2330 Trailers (e.g., semitrailers, house trailers, semitrailer dollies, etc.)
- 2340 Motorcycles, Motor Scooters, and Bicycles Tractors
- 2410 Tractors, Full Track, Low Speed (e.g. caterpillar and crawler, etc.)

- 2420 Tractors, Wheeled (e.g., agricultural and industrial wheeled tractors, etc.)
- 2430 Tractors, Track Laying, High Speed

Vehicular Equipment Components

- 2510 Vehicular Cab, Body, and Frame Structural Components
- 2520 Vehicular Power Transmission Components
- 2530 Vehicular Brake, Steering, Axle, Wheel, and Track Components
- 2540 Vehicular Furniture and Accessories
- 2590 Miscellaneous Vehicular Components (e.g., A-frames, bulldozer blades, crane booms, etc.)

Tires and Tubes

- 2610 Tires and Tubes, Pneumatic, except Aircraft
- 2620 Tires and Tubes, Pneumatic, Aircraft
- 2630 Tires, Solid and Cushion (includes rubber track laying treads)
- 2640 Tire Rebuilding and Tire and Tube Repair Materials/Machinery

Engines, Turbines, and Components

- 2805 Gasoline Reciprocating Engines, except Aircraft; and Components
- 2810 Gasoline Reciprocating Engines, Aircraft; and Components (e.g., only aircraft prime mover types)
- 2815 Diesel Engines and Components
- 2820 Steam Engines, Reciprocating and Components
- 2825 Steam Turbines and Components
- 2835 Gas Turbines and Jet Engines, except Aircraft; and Components (e.g., airborne auxiliary and ground gas turbine power units for aircraft engine starting, etc.) Rotary gasoline engines and components
- 2840 Gas Turbines and Jet Engines, Aircraft and Components
- 2845 Rocket Engines and Components
- 2895 Misc. Compressed Air and Wind Engines; Water Turbines and Wheels; and Components

Engine Accessories

- 2910 Engine Fuel System Components, Nonaircraft
- 2915 Engine Fuel System Components, Aircraft
- 2920 Engine Electrical System Components, Nonaircraft
- 2925 Engine Electrical System Components, Aircraft
- 2930 Engine Cooling System Components, Nonaircraft
- 2935 Engine Cooling System Components, Aircraft
- 2940 Engine Air and Oil Filters, Strainers, and Cleaners, Nonaircraft
- 2945 Engine Air and Oil Filters, Strainers, and Cleaners, Aircraft
- 2950 Turbosuperchargers
- 2990 Miscellaneous Engine Accessories, Nonaircraft
- 2995 Miscellaneous Engine Accessories, Aircraft

Mechanical Power Transmission Equipment

- 3010 Torque Converters and Speed Changers
- 3020 Gears, Pulleys, Sprockets, and Transmission Chain
- 3030 Belting, Drive Belts, Fan Belts, and Accessories
- 3040 Miscellaneous Power Transmission Equipment

Bearings

- 3110 Bearings, Antifriction, Unmounted
- 3120 Bearings, Plain, Unmounted
- 3130 Bearings, Mounted

Woodworking Machinery and Equipment

- 3210 Sawmill and Pinning Mill Machinery
- 3220 Woodworking Machines (excludes hand held power driven tools)
- 3230 Tools and Attachments for Woodworking Machinery

Metalworking Machinery

- 3411 Boring Machines
- 3412 Broaching Machines
- 3413 Drilling and Tapping Machines
- 3414 Gear Cutting and Finishing Machines
- 3415 Grinding Machines
- 3416 Lathes (excludes speed lathes)
- 3417 Milling Machines
- 3418 Planers and Shapers
- 3419 Misc Machine Tools (e.g., gun rifling machines, speed lathes, machines, etc.)
- 3422 Rolling Mills and Drawing Machines
- 3424 Metal Heat Treating and Non-Thermal Treating Equipment
- 3426 Metal Finishing Equipment
- 3431 Electric Arc Welding Equipment (excludes welding supplies and associated equipment)
- 3432 Electric Resistance Welding Equipment
- 3433 Gas Welding, Heat Cuffing, and Metalizing Equipment
- 3436 Welding Positioners and Manipulators
- 3438 Miscellaneous Welding Equipment
- 3439 Miscellaneous Welding, Soldering, and Brazing Supplies and Accessories
- 3441 Bending and Forming Machines
- 3442 Hydraulic and Pneumatic Presses, Power Driven
- 3443 Mechanical Presses, Power Driven (includes forging presses)
- 3444 Manual Presses
- 3445 Punching and Shearing Machines
- 3446 Forging Machinery and Hammers (excludes forging presses)
- 3447 Wire and Metal Ribbon Forming Machines (excludes roll forming machines)
- 3448 Riveting Machines (excludes power driven hand riveting machines)
- 3449 Miscellaneous Secondary Metal Forming and Cuffing Machines
- 3450 Machine Tools, Portable
- 3455 Cutting Tools For Machine Tools (excludes flame cuffing tools)
- 3456 Cuffing and Forming Tools For Secondary Metalworking Machinery
- 3460 Machine Tool Accessories (including accessories for secondary metals -- working machinery)
- 3465 Production Jigs, Fixtures, and Templates
- 3470 Machine Shop Sets, Kits, and Outfits

Service and Trade Equipment

- 3510 Laundry and Dry Cleaning Equipment
- 3520 Shoe Repairing Equipment

- 3530 Industrial Sewing Machines and Mobile Textile Repair Shops (excludes shoe-sewing machines)
- 3540 Wrapping and Packaging Machinery
- 3550 Vending and Coin Operated Machines
- 3590 Miscellaneous Service and Trade Equipment (includes barber chairs, kits, etc.)

Special Industry Machinery

- 3605 Food Products Machinery and Equipment (excludes kitchen and galley equipment)
- 3610 Printing, Duplicating, and Bookbinding Equipment
- 3615 Pulp and Paper industries Machinery
- 3620 Rubber and Plastics Working Machinery
- 3625 Textile Industries Machinery
- 3635 Crystal and Glass Industries Machinery
- 3645 Leather Tanning and Leather Working Industries Machinery
- 3650 Chemical and Pharmaceutical Products Manufacturing Machinery
- 3655 Gas Generating Equipment (excludes meteorological equipment)
- 3680 Foundry Machinery, Related Equipment and Supplies (e.g., molding machines, tumbling mills, etc.)
- 3685 Specialized Metal Container Manufacturing Machinery and Related Equipment
- 3690 Specialized Ammunition and Ordnance Machinery and Related Equipment
- 3695 Miscellaneous Special Industry Machinery (Includes marking machines, clay and concrete, etc.)

Agricultural Machinery and Equipment

- 3710 Soil Preparation Equipment
- 3720 Harvesting Equipment, Dairy Poultry and Livestock Equipment
- 3740 Pest, Disease, and Frost Control Equipment
- 3750 Gardening Implements and Tools, Animal Drawn Vehicles and Farm Trailers

Construction, Mining, Excavating, and Highway Maintenance Equipment

- 3805 Earth Moving and Excavating Equipment
- 3810 Cranes and Crane-Shovels (excludes barge-mounted cranes)
- 3815 Crane and Crane-Shovel Attachments
- 3820 Mining, Rock Drilling, Earth Boring, and Related Equipment
- 3825 Road Clearing and Cleaning Equipment
- 3830 Truck and Tractor Attachments (e.g., augers, blades, sweepers, etc.)
- 3835 Petroleum Production and Distribution Equipment (includes wellheads, pumping equipment, etc.)
- 3895 Miscellaneous Construction Equipment (e.g., asphalt heaters and kettles, concrete mixers, etc.)

Materials-Handling Equipment

- 3910 Conveyers
- 3920 Material Handling Equipment, Nonself-Propelled
- 3930 Warehouse Trucks and Tractors, Self-Propelled
- 3940 Blocks, Tackle, Rigging, and Slings
- 3950 Winches, Hoists, Cranes, and Derricks
- 3960 Elevators and Escalators
- 3990 Miscellaneous Materials Handling Equipment (e.g., skids/pallets) and Materials Feeders

Rope, Cable, Chain, and Fittings

- 4010 Chain and Wire Rope
- 4020 Fiber Rope, Cordage, and Twine
- 4030 Fittings for Rope, Cable, and Chain

Refrigeration and Air Conditioning Equipment

- 4110 Self-Contained Refrigeration Units and Accessories
- 4120 Self-Contained Air Conditioning Units and Accessories
- 4130 Refrigeration and Air Conditioning Plants and Components
- 4140 Fans and Air Circulators, Industrial and Nonindustrial

Fire Fighting, Rescue, and Safety Equipment

- 4210 Fire Fighting Equipment (including Fire Trucks)
- 4220 Marine Lifesaving and Diving Equipment (excludes lifesaving boats)
- 4230 Decontaminating and Impregnating Equipment
- 4240 Safety and Rescue Equipment

Pumps and Compressors

- 4310 Compressors and Vacuum Pumps
- 4320 Power and Hand Pumps
- 4330 Centrifugals Separators, and Pressure and Vacuum Filters

Furnace, Steam Plant, and Drying Equipment

- 4410 Industrial Boilers
- 4420 Heat Exchangers and Steam Condensers
- 4430 Industrial Furnaces, Kilns, Lehrs, and Ovens
- 4440 Driers, Dehydrators, and Anhydrators
- 4460 Air Purification Equipment

Plumbing, Heating, and Sanitation Equipment

- 4510 Plumbing Fixtures and Accessories
- 4520 Space Heating Equipment and Domestic Water Heaters
- 4530 Fuel Burning Equipment Units
- 4540 Miscellaneous Plumbing & Heating, and Sanitation Equipment

Water Purification and Sewage Treatment Equipment

- 4610 Water Purification Equipment**
- 4620 Water Distillation Equipment, Marine and Industrial
- 4630 Sewage Treatment Equipment

Pipe, Tubing, Hose, and Fittings

- 4710 Pipe and Tube (for other than underground, electrical, or laboratory use)
- 4720 Hose and Tubing, Flexible
- 4730 Fittings, and Specialties

Valves

- 4810 Valves, Powered
- 4820 Valves, Non powered

Maintenance and Repair Shop Equipment

- 4910 Motor Vehicle Maintenance and Repair Shop Specialized Equipment (excludes hand tools)
- 4920 Aircraft Maintenance and Repair Shop Specialized Equipment

- 4925 Ammunition Maintenance and Repair Shop Specialized Equipment
- 4930 Lubrication and Fuel Dispensing Equipment
- 4931 Fire Control Maintenance and Repair Shop Specialized Equipment
- 4933 Weapons Maintenance, Torpedo Maintenance, Depth Charge and Mines Maintenance, Rocket Maintenance and Repair Shop Specialized Equipment
- 4935 Guided Missile Maintenance, Repair, and Checkout Specialized Equipment
- 4940 Miscellaneous Maintenance and Repair Shop Specialized Equipment
- 4960 Space Vehicle Maintenance, Repair, and Checkout Specialized Equipment

Hand Tools

- 5110 Hand Tools, Edged, Nonpowered
- 5120 Hand Tools, Nonedged, Nonpowered
- 5130 Hand Tools, Power Driven
- 5133 Drill Bits, Counterbores, and Countersinks: Hand and Machine
- 5136 Taps, Dies, and Collets: Hand and Machine (excludes punching, stamping, and marking dies)
- 5140 Tool and Hardware Boxes
- 5180 Sets, Kits, and Outfits of Hand Tools

Measuring Tools

- 5210 Measuring Tools, Craftsmen's
- 5220 Inspection Gages and Precision Layout Tools
- 5230 Sets, Kits, and Outfits of Measuring Tools

Hardware and Abrasives

- 5305 Screws
- 5306 Bolts
- 5307 Studs
- 5310 Nuts and Washers
- 5315 Nails, Keys, and Pins
- 5320 Rivets
- 5325 Fastening Devices
- 5330 Packing and Gasket Materials
- 5340 Miscellaneous Hardware and Metal Screening, Flatcoils, Wire Springs, Rings Shims and Spacers
- 5345 Disks and Stones, Abrasive
- 5350 Abrasive Materials
- 5355 Knobs and Pointers

Prefabricated Structures and Scaffolding

- 5410 Prefabricated and Portable Buildings and Rigid Wall Shelters
- 5420 Bridges, Fixed and Floating (excludes pontoons and floating docks)
- 5430 Storage Tanks
- 5440 Scaffolding Equipment and Concrete Forms
- 5445 Prefabricated Tower Structures
- 5450 Miscellaneous Prefabricated Structures (e.g., bleachers)

Lumber, Millwork, Plywood, and Veneer

- 5510 Lumber and Related Basic Wood Materials (e.g., plywood doors, door frames and windows)

Construction and Building Materials

- 5610 Mineral Construction Materials, Bulk
- 5640 Wallboard, Building Paper, and Thermal insulation Materials
- 5650 Roofing and Siding Materials'
- 5660 Fencing, Fences, and Gates
- 5670 Architectural and Related Metal Products (e.g., door frames, fixed fire escapes, etc.)
- 5680 Miscellaneous Construction Materials (e.g., metal lath, airplane landing mats)

Communication Equipment

- 5805 Telephone and Telegraph Equipment
- 5815 Teletype and Facsimile Equipment
- 5820 Radio and Television Communication Equipment, except Airborne (excludes home-equipment)
- 5821 Radio and Television Communication Equipment, Airborne
- 5825 Radio Navigation Equipment, except Airborne
- 5826 Radio Navigation Equipment, Airborne
- 5830 Intercommunication and Public Address System, except Airborne
- 5831 Intercommunication and Public Address Systems, Airborne Sound Recording and Reproducing Equipment
- 5840 Radar Equipment, except Airborne
- 5841 Radar Equipment, Airborne
- 5845 Underwater Sound Equipment (includes only communication types of infrared equipment)
- 5895 Miscellaneous Communication Equipment (Including Communications Security Equipment, etc.)

Electrical and Electronic Equipment Components

- 5905 Resistors
- 5910 Capacitors
- 5915 Filters and Networks
- 5920 Fuses and Lightning Arresters
- 5925 Circuit Breakers
- 5930 Switches
- 5935 Connectors, Electrical
- 5940 Lugs, Terminals, and Terminal Strips
- 5945 Relays, Contactors, and Solenoids
- 5950 Coils and Transformers
- 5955 Piezoelectric Crystals
- 5960 Semi-Conductor Devices and Associated Hardware
- 5965 Headsets, Handsets, Microphones, and Speakers
- 5970 Electrical Insulators and Insulating Materials
- 5975 Electrical Hardware and Supplies
- 5977 Electrical Contact Brushes and Electrodes
- 5985 Antennas, Waveguides, and Related Equipment
- 5990 Synchros and Resolvers (includes autosyn motors, selsyn generators, etc.)
- 5995 Cable, Cord, and Wire Assemblies: Communication Equipment
- 5999 Miscellaneous Electrical and Electronic Components

Electric Wire, and Power and Distribution Equipment

- 6105 Motors, Electrical
- 6110 Electrical Control Equipment

- 6115 Generators and Generator Sets, Electrical
- 6120 Transformers: Distribution and Power Station
- 6125 Converters, Electrical
- 6130 Power Conversion Equipment, Electrical
- 6135 Batteries, Primary
- 6140 Batteries, Secondary
- 6145 Wire and Cable, Electrical
- 6150 Miscellaneous Electric Power , Solar Electric Power Systems, Fuel
Units, Components and Accessories

Lighting Fixtures and Lamps

- 6210 Indoor and Outdoor Electric Lighting Fixtures and Nonelectric
Fixtures
- 6220 Electric Vehicular Lights and Fixtures (includes railroad and
aircraft fixtures)
- 6230 Electric Portable and Hand Lighting Equipment
- 6240 Electric Lamps
- 6250 Ballasts, Lampholders, and Starters

Alarm and Signal Systems

- 6320 Shipboard Alarm and Signal Systems
- 6340 Aircraft Alarm and Signal System
- 6350 Miscellaneous Alarm and Signal Systems, Traffic and Transit and
Railroad Signal and Warning Devices

Medical, Dental, and Veterinary Equipment and Supplies

- 6505 Drugs, Biologicals, and Official Reagents
- 6510 Surgical Dressing Materials
- 6515 Medical and Surgical Instruments, Equipment, and Supplies
- 6520 Dental Instruments, Equipment, and Supplies
- 6525 X-Ray Equipment and Supplies
- 6530 Hospital Furniture, Equipment, Utensils, and Supplies
- 6540 Opticians' Instruments, Equipment, and Supplies
- 6545 Medical Sets, Kits, Outfits, Cosmetics and Toiletries

Instruments and Laboratory Equipment

- 6605 Navigational Instruments
- 6610 Flight Instruments
- 6615 Automatic Pilot Mechanisms and Airborne Gyro Components
- 6620 Engine Instruments (includes all aircraft, marine, and vehicular
engine instruments)
- 6625 Electrical and Electronic Properties Measuring and Testing
Instruments
- 6630 Chemical Analysis Instruments (e.g., gas analyzers, hydrometers, etc.)
- 6635 Physical Properties Testing Equipment
- 6636 Environmental Chambers and Related Equipment
- 6640 Laboratory Equipment and Supplies
- 6645 Time Measuring Instruments
- 6650 Optical Instruments
- 6655 Geophysical and Astronomical Instruments
- 6660 Meteorological Instruments and Apparatus
- 6665 Hazard-Detecting Instruments and Apparatus
- 6670 Scales and Balances
- 6675 Drafting, Surveying, and Mapping Instruments

- 6680 Liquid and Gas Flow, Liquid Level, and Mechanical Motion Measuring Instruments
- 6685 Pressure, Temperature, and Humidity Measuring and Controlling Instruments
- 6695 Combination and Miscellaneous Instruments (e.g., lie detectors, meter registers, etc.)

Photographic Equipment

- 6710 Cameras. Motion Picture
- 6720 Cameras, Still Picture
- 6730 Photographic Projection Equipment
- 6740 Photographic Developing and Finishing Equipment
- 6750 Photographic Supplies
- 6760 Photographic Equipment and Accessories
- 6770 Film, Processed
- 6780 Photographic Sets, Kits, and Outfits

Chemicals and Chemical Products

- 6810 Chemicals (includes nonmedicinal chemical elements and compounds, etc.)
- 6820 Dyes
- 6830 Gases: Compressed and Liquefied
- 6840 Pest Control Agents and Disinfectants
- 6850 Miscellaneous Chemical Specialties (e.g., antifogging compound, antifreeze, deicing fluid, etc.)

Training Aids and Devices

- 6910 Training Aids (e.g., cutaway models, vehicle training aids, etc.)
- 6920 Armament Training Devices (e.g., silhouette targets, etc.)
- 6930 Operational Training Devices (e.g., flight simulators, etc.)
- 6940 Communication Training Devices

Furniture

- 7105 Household Furniture
- 7110 Office Furniture
- 7125 Cabinets, Lockers, Bins, and Shelving
- 7195 Miscellaneous Furniture and Fixtures

Household and Commercial Furnishings and Appliances

- 7210 Household Furnishings (e.g., bed blankets, mattresses, pillows, etc.)
- 7240 Household and Commercial Utility Containers
- 7290 Miscellaneous Household and Commercial Furnishings and Appliances (e.g., carpets, tile, etc.)

Food and Food Preparation and Serving

- 7310 Food Cooking, Baking, and Warming Equipment
- 7320 Kitchen Equipment and Appliances
- 7330 Kitchen Hand Tools and Utensils
- 7350 Tableware, Cutlery and Flatware
- 7360 Food and Food Preparation and Serving Kits and Outfits

Office Machines and Data Processing Equipment

- 7410 Punched Card System Machines
- 7420 Accounting and Calculating Machines
- 7430 Typewriters and Office Type Composing Machines

- 7440 Automatic Data Processing Systems: Industrial, Scientific, and Office Types
- 7450 Office Type Sound Recording and Reproducing Machines
- 7460 Visible Record Equipment (e.g., rotary files, etc.)
- 7490 Miscellaneous Office Machines (e.g., cash registers, check machines, etc.)

Office Supplies and Devices

- 7510 Office Supplies
- 7520 Office Devices and Accessories
- 7530 Stationery and Record Forms (excludes standard forms approved for government-wide use)

Books and Other Publications

- 7610 Books Maps and Miscellaneous Printed Matter

Musical Instruments, Phonographs, and Home-Type Radios

- 7710 Musical Instruments and Accessories
- 7730 Phonographs, Phonograph Records, Radios, and Television Sets: Home-Type

Recreational and Athletic Equipment

- 7810 Athletic and Sporting Equipment
- 7830 Toys, Games, Recreational and Gymnastic Equipment

Cleaning Equipment and Supplies

- 7910 Floor Polishers, Vacuum Cleaners, Brushes, Brooms, and Mops
- 7930 Cleaning and Polishing Compounds and Preparations

Brushes, Paints, Sealers, and Adhesives

- 8010 Paints, Paint Brushes. Dopes, Varnishes, and Related Products
- 8030 Preservative and Sealing Compounds
- 8040 Adhesives

Containers, Packaging, and Packing Supplies

- 8105 Bags and Sacks
- 8110 Drums and Cans
- 8115 Boxes, Cartons, and Crates
- 8120 Gas Cylinders
- 8125 Bottles and Jars
- 8130 Reels and Spools
- 8135 Packaging and Packing Bulk Materials (e.g., baling wire, waterproof barriers, corrugated paper, etc.)
- 8140 Ammunition and Nuclear Ordnance Boxes, Packages, and Special Containers
- 8145 Shipping and Storage Containers

Textiles, Leather, Furs, Apparel, and Shoe Findings, Tents and Flags

- 8305 Textiles, Leather, Fur, Flags and Pennants
- 8340 Tents and Tarpaulins

Clothing and Individual Equipment

- 8405 Outerwear, Men's
- 8410 Outerwear, Women's
- 8415 Clothing Special Purpose, Safety, Protective, Athletic, Medical, and Children Clothing
- 8420 Underwear and Nightwear, Men's
- 8431 Footwear, Men's
- 8435 Footwear, Women's
- 8440 Hosiery, Handwear, and Clothing Accessories: Men's
- 8445 Hosiery, Handwear, Underwear, and Clothing Accessories: Women's
- 8460 Luggage
- 8465 Individual Equipment (e.g. ammunition belts, sleeping and duffel bags, sun glasses, toiletries, etc.)
- 8475 Specialized Flight Clothing and Accessories

Agricultural Supplies

- 8710 Forage Feed, Seed and Fertilizers

Live Animals

- 8820 Live Animals and Related Animal Furnishing (Includes Saddlery, Harness, Whips)

Fuels, Lubricants, Oils, and Waxes

- 9110 Fuels, Solid
- 9130 Liquid Propellants and Fuels, Petroleum Base
- 9135 Liquid Propellant Fuels and Oxidizers, Chemical Base
- 9140 Fuel Oils
- 9150 Oils and Greases: Cutting Lubricating and Hydraulic
- 9160 Miscellaneous Waxes, Oils, and Fats

Nonmetallic Crude and Fabricated Materials

- 9310 Paper and Paperboard
- 9320 Rubber Fabricated Materials
- 9330 Plastics Fabricated Materials
- 9340 Glass Fabricated Materials
- 9350 Refractories and Fire Surfacing Materials
- 9390 Miscellaneous Crude and Fabricated Nonmetallic Materials

Metal Bars, Sheets, and Shapes

- 9505 Wire, Nonelectrical, Iron and Steel
- 9510 Bars and Rods. Iron and Steel
- 9515 Plate, Sheet, and Strip: Iron and Steel
- 9520 Structural Shapes, Iron and Steel
- 9525 Wire, Nonelectrical, Nonferrous Base Metal
- 9530 Bars and Rods, Nonferrous Base Metal
- 9535 Plate, Sheet, Strip, and Foil: Nonferrous Base Metal
- 9540 Structural Shapes, Nonferrous Base Metal
- 9545 Plate, Sheet, Strip, Foil, and Wire: Precious Metal

Primary Metal Products

- 9630 Additive Metal Materials and Master Alloys
- 9640 Iron and Steel Primary and Semifinished Products (e.g., ingots, pigs, billets, etc.)
- 9650 Nonferrous Base Metal Refinery and Intermediate Forms Ores and Natural and Synthetic Minerals

CLASSES OF PROPERTY SOLD RECYCLABLE MATERIALS**CLASS**

NO.	DESCRIPTION
8305	Textiles including Synthetic Fabric
9450	Paper (e.g., newsprint, manila cards)
9450	Rubber (e.g., tires and tubes)
9450	Miscellaneous (e.g., leather, plastic, fiberglass, etc.)
9450	Exposed Film/Spent Hypo Solution
9450	Waste Oil, Jet Fuels, Paints, Chemicals, Waxes, and Lubricants
9450	Food Waste
9450	Industrial Diamond Containing Materials
9460	Precious Metals, All Types
9660	Gold and Silver Plated or Brazed on Base Metal
9660	Cast iron
9670	Prepared Heavy Melting Steel
9670	Unprepared Heavy Melting Steel
9670	Prepared Light Steel (black and/or galvanized)
9670	Unprepared Light Steel (black and/or galvanized)
9670	Unprepared Mixed Heavy and Light Steel
9670	Turnings and Borings (steel and/or wrought iron)
9670	Stainless Steel Alloys, Magnetic and Nonmagnetic
9670	High Temperature Alloys: Nickel and Cobalt Base which are Copper Free
9680	Copper, Copper-Base Alloys and Copper Containing Materials (includes spent bullets, casings, and shells)
9680	Copper-Bearing Materials (e.g., motors, armatures, generators, etc.)
9680	Aircraft sold for recovery of basic metal content, parts and components
9680	Magnesium Alloys
9680	Lead, Lead-Base Alloys, Antimony, Zinc and Zinc Alloys (includes lead-acid type storage batteries)
9680	Bullet and Projectile Metals (to be recovered from target, artillery and bombing ranges)
9680	Storage Batteries (nickel-iron-alkaline types)
9680	Storage Batteries (silver-zinc, nickel-cadmium and mercury types)
9680	Tin and Alloys (includes tin-base babitt metal and block tin pipe, excludes tin cans andterneplate)

DLA SYSTEMS DESIGN CENTER

DSDC provides automated information systems solutions, including integrated systems in support of DLA for more than 35 years. DSDC's mission is to be the provider of choice for integrated information management support, delivering responsive, innovative solutions to meet the customer's needs and provide real-world automation systems DOD-wide. (This center scheduled to be abolished.)

DEFENSE CONTRACT MANAGEMENT COMMAND

COMMANDER: Maj Gen Timothy P. Malishenko, USAF

DCMC Headquarters

8725 JOHN J. KINGMAN RD, STE 2533

Fort Belvoir, VA 22060-6221

Web Site: <http://www.dcmc.hq.dla.mil>

AT A GLANCE:

Manages more than 366,000 prime contracts worth more than \$970 billion

Covers more than 23,000 contractors

DLA's Defense Contract Management Command (DCMC) provides customer-focused contract management services -- through the acquisition life cycle -- around the clock, around the world. To accomplish its mission, DCMC performs a variety of functions, including:

Providing contract management for the acquisition of such diverse product lines as aircraft, space launch vehicles and spacecraft, medical and subsistence items, electrical and electronic commodities, military vehicles, munitions, petroleum, chemicals and lumber;

Performing price/cost analysis, overhead and contractor system reviews, financial services, property and plant clearance, transportation and packaging and termination settlements;

Providing quality assurance by verifying that the product conforms to contract specifications;

Providing program and technical support by analyzing cost, schedule and technical performance of contractor programs and systems;

Providing access to the services of the DLA Fraud Program. These services include: training in the prevention and detection of fraud; assistance in the investigation of contract-related irregularities; and coordination of administrative remedies;

Providing flight operations support.

The DCMC Flight Operations Team ensures the safety and reliability of all military aircraft. DCMC provides flight operations oversight for more than 1,100 aircraft per year, performing more than 20,000 flight hours each year in 62 facilities through 19 states and 12 foreign countries. The Flight Operations Team has two primary focus areas: government flight operations, in which military aircrews assigned to DCMC perform flight operations at contractor facilities (per FAR 42.302), and contractor flight operations, in which DCMC grants approval authority for contractor flight and ground operations procedures, crewmembers and flights (per DFARS 252-228).

As part of the Flight Operations Team mission, DCMC provides:

- Operational risk management
- Support to the DOD Unmanned Aerial Vehicle Working Group
- Formal training courses for all government flight representatives, aviation maintenance managers and aircraft ground safety specialists
- Standardized contractor procedures

As part of its ongoing teaming relationship with industry, DCMC's Flight Operations Team serves alongside industry counterparts on several government-industry boards, including the National Aerospace FOD Prevention Board and the Aviation Operation Integration Process Team.

Providing the full-range of customer support through the DCMC Customer Support Team (also see the DCMC customer liaison program section in this handbook).

DCMC's cadre of 29 contract management professionals known as customer liaison representatives (CLRs) facilitate communication and teamwork with DCMC's customers. The CLRs are stationed at major Army, Navy and Air Force customer buying commands, NASA centers and DLA inventory control points as well as the Defense Finance and Accounting Service in Columbus, the Defense Systems Management College and the Navy's Acquisition Center of Excellence.

The liaisons' primary mission is to promote good customer relations and monitor customer satisfaction in order to ensure the highest level and quality of support for the warfighter.

Liaisons work hand-in-hand with the customer in all phases of the acquisition process, from Early CAS (see below) activities such as serving on acquisition strategy panels and source selection panels, to helping expedite contract close-out and save funds at risk of cancellation.

They facilitate a constructive dialogue with the customer and provide performance feedback to DCMC contract administration offices and insight relative to customer priorities and expectations. Liaisons provide real time, on-site assistance to the buying commands in resolving a variety of acquisition issues and help DCMC position itself to meet the customers' needs and expectations of tomorrow.

Liaisons promote true partnering with customer buying commands and have significantly enhanced the command's customer outreach efforts and understanding of the warfighters' needs.

Providing an array of pre-award services as part of DCMC's Early Contract Administration Services (Early CAS) program.

The Early CAS program brings contract management professionals into the acquisition process early -- before costs are incurred-- to significantly reduce post-award complications. Any acquisition, including hardware, software and service procurements, benefits when DCMC professionals join the pre-award team to:

- Construct more effective solicitations
- Identify potential performance risks
- Select capable contractors and
- Develop contracts that are easily administered with less risk of costly modifications.

Once the contract is awarded. DCMC's Contract Administration Offices (CAOs), located throughout the United States and the world, provide valuable services to contracting officers and program managers, including:

- Support to fact-finding and negotiations
- Safety and environmental assurance
- Evaluations of contractor processes and controls
- Evaluations of contractor corrective actions
- Control of property (such as facilities and government furnished materials) and
- Independent evaluation of contractor progress to include progress payment evaluations

DCMC's CAOs manage contracts within a geographic area and within contractors' plants. This management includes daily, on-site surveillance of contractor systems and program-specific concerns that cannot be viewed or monitored by offsite agencies, including access to, and participation in, internal contractor meetings. The CAO organization allows DCMC personnel to reside close to or in contractors' facilities and to tailor services to customers' unique requirements and associated risks. DCMC personnel serve as "information brokers" for contracting officers and program managers by protecting the government's interest through the life of a contract.

The DCMC Customer Liaison Program

The DCMC customer liaison representatives provide customers with “one button to push,” one person to contact when a problem or concern arises. For instance, liaisons:

- Provide advice and assistance to acquisition officials;
- Assess customer satisfaction with DCMC products and services;
- Identify areas of improvement;
- Represent DCMC at customer meetings and conferences, and
- Educate and advise customers on DCMC initiatives and advise DCMC on customers' acquisition trends.

One of the most significant roles the liaisons will play is getting DCMC involved early in the acquisition cycle. DCMC's vast experience and knowledge in contract administration can be used to assist the buying activity in executing contractual documents that preclude or limit contract administration problems. (See the DCMC introduction in this handbook for more specific information on the role of the liaisons.)

DLA EUROPE AND DLA PACIFIC

DLA EUROPE

COMMANDER: COL Gary Harris, USA

DLA Europe is the DLA Headquarters' focal point with the European Theater and directly serves the Headquarters' mission by providing customer assistance, liaison, services, war-planning interfaces and logistics support to the Commander-in-Chief, European Command, and the service components' commands: USAREUR, USAFE, NAVEUR, MARFOREUR and SOCEUR.

DLA Europe has its main offices in Wiesbaden, Germany. The organization includes a Command Section, a Logistics Plans and Operations Directorate, a Customer Support Team and a Logistics Operation Center. Other DLSC activities in the Wiesbaden area include Defense Reutilization and Marketing Service International, Defense Energy Region Europe, and the Defense Supply Center, Philadelphia, European Region, as well as activities of the Defense Contract Management Command. For more information:

DLA PACIFIC

COMMANDER: CAPT Lynn Simon, SC, USN

DLA Pacific is the DLA Headquarters focal point within the Pacific Theater and offers the full range of logistics support to the Commander-in-Chief, Pacific Command, and the service components' commands. In the Pacific Theater, the DLA Pacific commander is located forward in Taegu, Korea, to better support combat forces on the ground in Korea. The deputy is resident in Hawaii to represent the DLA Director to CINCPAC, and coordinate long-range strategic logistics support planning with the Pacific Command logistics plans staff. For more information:

COMMERCIAL NUMBER: (808) 477-1243
DSN: (315) 477-1243
Fax: x1246

Also see customer representative listing at the beginning of this handbook for DLA Europe representatives who can help you.

DLA EUROPE PROGRAMS/CUSTOMER INFORMATION

DLA LINK AND PC LINK SYSTEM

DLA Europe operates a computer system at the Mainz Kastel site which allows DLA customers in Europe to send queries to several different systems and to receive responses back either as email messages or, if using PC link, directly to your computer. Queries can be sent to the DLA supply, cataloging, reutilization and communication systems. Army, Navy, Air Force, Military Traffic Management Command and General Services Administration systems can also be queried. The primary advantage is that information from many different systems is available from a single system with a single password. In addition, other information such as the DLA Customer Assistance Handbook, the DLA bulletin board, job announcements, and ALOC pre-alert messages can be accessed using the system.

TO ESTABLISH YOUR OWN LINK OR PC LINK ACCOUNT CONTACT THE DLA EUROPE ADP HELPDESK AT DSN 338 7245. (For more information on LINK in its various forms, refer to the Logistics Programs/Customer Information section of this handbook.)

DLA-ARMY SARSS-O SYSTEM INTERFACE

RON/DON, (Reorder Number/Document Number) is the Army SARSS-O system process that changes the customer order number (RON) to the document number (DON) submitted to DLA wholesale sources of supply. Army customers' orders are first filled by the servicing Supply Support Activity (SSA). Next, if they are unable to fill the requirement by referring it to another Army activity on the geographical referral table which has the item, it will be rolled with any other requirements and sent to the DLA source of supply. In order to obtain status on requisitions, SSAs must go through the SARSS system. RON inquiries sent to DLA will show no record of the requisitions since the RON is not sent to DLA.

Customer requisitions sent directly to DLA inventory control point emergency support operation centers will be accepted by voice, fax, email, message, Internet, or the DOD Emergency Supply Expert System, DESEX. When the DLA system generates status back to the customer, this will establish a record in the SARSS-O system if it has not all ready been created. Numerous reviews may be activated in SARSS that could result in cancellation of the customers' direct requisition. Also, the document record established in SARSS-O may not be passed to SSA level. When the item is received at the SSA, there may be no record of the due-in for requisition. Without a dues-in record, the item may be classified as excess and will never get to the customer who needs it. DLA recommends that Army customers follow Army policy with regard to direct requisitioning.

DLA EUROPE CRITICAL ITEM LIST, CIL

DEFINITION: A list containing requisitions for DLA-managed items that is generated by DLA European customer representatives and DLA Contingency Support Team members. It contains items that are needed to maintain critical weapons systems at acceptable operational levels. DLA Europe customers provide the information which results in an item being placed on the list. The purpose of the list is to share information on critical items to avoid duplicating efforts and to focus DLA management attention on those items which the customers have identified as being the most important to mission readiness.

SOURCE: Direct interaction with customers by attending readiness-focused meetings is the primary source of the CIL. The reports which are discussed at these meeting (e.g., Logstar, aircraft on the ground, MICAP, 026, and NORS) are used to obtain detailed information. Phone calls and other meeting may also result in items being placed on the CIL.

CRITERIA: The most important criteria for placing an item on the list is if it is required to improve weapon system mission capability rates. Other factors include JCS project code, high-priority requisition, active supply assistance request, backorder status more than 30 days old, more than 30 days to estimated shipping date, and/or missing or delayed shipping status.

CUSTOMER SUPPORT: The entire purpose of the CIL is to ensure that DLA is aware of our customers' most critical requirements and to make sure these requirements are receiving the level of management attention necessary. If you have questions about the CIL, if you have an item which you think should be placed on the CIL, or if you want to find out the status of an item on the CIL, please contact your DLA Europe customer representative (listed in the very first section of the Handbook) who will be happy to assist you.

REQUESTING A DLA EUROPE CUSTOMER ASSISTANCE VISIT

DLA Europe no longer schedules regular visits to the customers in our area of responsibility because of the DOD emphasis on reducing costs.

Visits will continue to be scheduled when there are specific DLA issues and concerns that need to be addressed. However, if a DLA representative is in your area, the representative may schedule visits with nearby customers in order to maximize benefits from TDY dollars. We are here to serve you and support your important missions. To request a visit by a DLA Europe customer assistance representative, please notify us by letter or email. The suggested format is as follows:

FROM: [Insert Address]

To (EMAIL): deur-o@europe.dla.mil

To: (Mail)

Commander
HQ DLA Europe
CMR 443, Box 1000
APO AE 09096

Subject: Request for DLA Europe Customer Assistance Visit

Indicate that your activity is requesting a DLA Customer Assistance Visit. Specify DLA problems and issues that you would like to address. Indicate training requirements that you would like a representative to cover.

Indicate a desired date and provide a point of contact for the visit. Have the request generated at the Division level or higher.

DLSC CUSTOMER SUPPORT AND READINESS DIRECTORATE

The DLSC Customer Support and Readiness Directorate, known as DLSC-C, was created in fiscal year 1997 to develop and administer plans, policies and procedures for all areas of customer support and readiness. The directorate includes teams responsible for customer communications, international programs, contingency planning and emergency support and customer interface.

Executive Director
DSN 427-1626, Comm. (703) 767-1626
Deputy Executive Director
DSN 427-1491, Comm. (703) 767-1491

The International Programs Team (DLSC-CI) ensures that all DLSC policies and procedures are integrated into a comprehensive agency program that supports our foreign customers. This includes the areas of security assistance (foreign military sales) and international logistics (all other support that DLSC provides or receives from friendly and allied nations).

For information, call the appropriate Security Assistance/FMS personnel listed in this section (page 142) of the handbook, or DSN 427-7565, Comm. (703) 767-7565.

The Contingency Planning and Emergency Support Team (DLSC-CP) oversees all contingency planning and emergency support and sets policy for and interfaces with DLSC's Emergency Supply Operations Centers, the Defense Emergency Supply Expert System (DESEX) and call centers.

You can reach the DLSC Headquarters ESOC at DSN 427-3700, Comm. (703) 767-3700.

ESOCS

Please note that DLSC supply centers often have several entry points for emergency requisitions and are also making transitions to using their call centers as the one entry point for customers. Please refer to individual supply center listings in this handbook for more information.

Comm. (717) 770-6192

The Customer Interface Support Group (DLSC-CS) includes several teams.

The Services Support Team consists of Army, Navy, Air Force, Marine Corps and non-DOD teams that address the specific needs of the individual services and civil agency customers and interface with ICP readiness offices. DLSC's CONUS customer representatives, listed in the front of this handbook and located at customer sites, belong to these teams.

DLSC Customer Support and Readiness Points of Contact

Army Team Coordinator	Navy Team Coordinator	Air Force Team Coordinator	Marine Corps Team Coordinator	Civil Agency/Law Enforcement Support Team	Overall Coord.

(703) 767-1222 Fax: x1516

The Readiness Systems Support Team (DLSC-CSS) coordinates tailored, integrated logistics solutions to improve DLSC support to weapon systems and depot maintenance programs with the military services and ICPs. This includes support to military service Contractor Logistics Support (CLS) initiatives, Industrial Forecasting Support Groups (IFSGs) for non-recurring depot/industrial maintenance programs, and support to service depot maintenance activities bidding on public/private competition workload. The team also maintains/improves the weapon systems support program policy/instructions and functionality of data bases/information systems used to analyze and improve parts support to weapon systems.

Readiness Systems Support Team Points of Contact:

Support to CLS initiatives: DSN 427-3756/3779/1243;Comm. (703) 767-3756/3779/1243

IFSG Policy/Projects: DSN 427-7554/7529;Comm. (703) 767-7554/7529

Support to service depot maintenance activity bid packages: DSN 427-3756/7529; Comm. (703) 767-3756/7529

Weapon Systems Support Program Data Base and Policy: DSN 427-1515/7521; Comm. (703) 767-1515/7529.

The Customer Representative Support Unit (DCRSU) oversees the personnel and administrative support for DLSC's customer support representatives. These customer representatives serve as DLSC's front-line support to customers. The reps are listed in the front of the handbook.

The Customer Communications Team (DLSC-CC) provides information to customers, making it easier for them to use DLSC products and services and leading to increased readiness and customer satisfaction. The team also gathers information from customers on what they think of DLSC products and services. Information available:

GENERAL SERVICES ADMINISTRATION

Acquisition Management Assignments

Web Site: <http://www.gsa.gov>

Each year the General Services Administration, through its Federal Supply Service, provides federal agencies with billions of dollars worth of support in supply and procurement, fleet management, personal property disposal and travel and transportation services. Acquisition centers' marketing managers/customer and vendor relations directors serve FSS customers as a central, commodity-oriented contact point within each acquisition Center. Your questions, concerns, problems, and suggestions on any aspect of Acquisition Center operations and supply support capabilities should be addressed through these directors.

THE JAVITS-WAGNER-O'DAY PROGRAM

Quality, Value and Employment

Your purchases of supplies and services, including SKILCRAFT brand products, provided under the Javits-Wagner-O'Day (JWOD) Program, create thousands of jobs for people who are blind or who have other disabilities working in nonprofit agencies located across the country. JWOD customers are assured of quality products and services, equal to or better than comparable commercial choices, delivered when you need them at a reasonable price. At the same time, federal customers are complying with mandatory source requirements stipulated by the JWOD Act of 1971 and the Federal Acquisition Regulation (FAR), Subpart 8.7.

If you are new to the JWOD Program, please use this information to obtain our products and services and become a JWOD customer. If you are already a JWOD supporter, we hope this information will remind you of the wide range of quality products and services available through the Program. We appreciate your business!

JWOD Products Distributed by DLA

A number of JWOD military-specific products are distributed through DLA. The most common ordering method is through requisition:

FEDSTRIP - Fill out Form 344 and send to the appropriate Inventory Control Point.

MILSTRIP - Fill out *Form* DD1348 and *send to* the appropriate Inventory Control Point.

Some items are available through the DLA's Prime Vendor Programs. These include medical/surgical products, available through DSCP's Med/Surg Prime Vendor Program or on DSCP DAPAS. The items are listed as NIB or NISH in the manufacturer field of the electronic database, where product and price updates are made monthly. JWOD items also appear on the Med Catalog available on CD ROM. To obtain JWOD products, you must specify that you want JWOD (NIB/NISH) items.

JWOD food and non-subsistence (equipment) products are available through the DSCP Subsistence Prime Vendor Program and Military Unique Subsistence Items Contract (MUSIC). These items are available through the designated vendors for specific regions. MUSIC items are sold almost exclusively to the U.S. Navy for shipboard use and are carried by Prime Vendors servicing the Navy. As other electronic catalog and vendor programs evolve, JWOD products will be represented where appropriate. To obtain more information, contact your regional Prime Vendor.

GSA Advantage!

To be sure you are getting JWOD products such as office products and supplies, tap into GSA Advantage which is an Internet-based shopping service allowing Federal customers to browse, search, review prices and delivery options and order on-line. Payment methods include the IMPAC card or interfund billing. JWOD items are identified throughout the system. The ordering function is open to all authorized users (with AACs or IMPAC cards) for Stock Program orders.

Browse the system at <http://www.gsa.gov>. For more information, call (703) 305-7359, or send an email to GSA.Advantage@gsafss.gov

Government IMPAC Purchase/Smart Cards

To purchase JWOD supplies with your IMPAC card, order through GSA Customer Supply Centers or GSA Advantage! The IMPAC Card is also accepted by all of the vendors participating in the Multiple Award Schedule for next-day desktop delivery of office supplies (see below).

Buying JWOD Supplies Through Commercial Vendors

Federal customers can also purchase mandatory source JWOD office supplies from several national vendors under GSA Schedule 75 III A with next-day, desk-top delivery. Orders may be placed by phone, fax, or electronic data interchange (EDI). Vendors will accept the IMPAC card for payment. Blanket Purchase Agreements between agencies and vendors are also permitted. For more information about ordering from the Schedule vendors, please contact them directly. If you are a credit card coordinator responsible for training, we can provide materials to assist you. Contact NISH, NIB or the Committee (addresses listed below) for more information. When contacting the vendors below, be sure to request their government catalog when placing your order.

Boise Cascade Office Products (888) 505-FEDS (that's 3337)
BT Office Products International (888) 862-8674
Corporate Express (800) 270-9711
Innovative Sales Brokers (800) 283-1903
Office Depot (888) 263-9586
Staples National Advantage (800) 538-2728
ManCon (Oceana Servmart and elsewhere) (800) 766-9079
Adams Marketing (Langley Air Force Base and elsewhere) (800) 322-6082

Government or JWOD-operated Base Supply Centers, SSSCs and SERVMARTS

Many JWOD products, including office supplies, cleaning products, and military-specific equipment are available at military Base Supply Centers, SSSCs and SERVMARTS operated on-base by JWOD participating non-profit agencies. More than 50 Base Supply Centers are currently operating, with more expected to open in the near future. For the Military Base Supply Center nearest you, contact NIB Customer Service at 1-800-433-2304.

Services

Each service contract is added to the JWOD Program individually and with the involvement and cooperation of the contracting activity. Examples of services available under the JWOD Program include, but are not limited to administrative, grounds maintenance, food service, data entry, customer service, mail service, laundry, telecommunication and switchboard operation, janitorial, warehousing, recycling and parts sorting. In addition, temporary administrative and general support services are also available through a Basic Ordering Agreement (BOA) established with GSA in the spring of 1997. If you have any questions about JWOD service capabilities, please contact the Service Project Development Team Staff at NISH or NIB at the numbers listed below.

For additional Information about JWOD Products, contact one of the numbers below:
